OBJECTIVE

A enthusiastic engineering student focused on Web Development and Artificial Intelligence, aiming to leverage technical and analytical skills to create scalable, intelligent, and efficient digital solutions.

EDUCATION

VSB College of Engineering Technical Campus | Coimbatore, Tamil Nadu 2023 – 2027 (ONGOING)
B.TECH in Information Technology
CGPA: 8.2/10

St.Michael's higher secondary school (HSC) 2023–2027 Computer
Science with Mathematics
PERCENTAGE : 82%

AREA OF INTEREST & TECHNICAL SKILLS

- **Area of Interest:** Full-Stack Web Development, UI/UX Design, Database Management, and REST API Development
- **Programming Language:** Python, Java
- **Web Technologies:** HTML, CSS, JavaScript, React.js
- **Database:** SQL
- **Tools & Platforms:** Git, GitHub, VS Code

PROJECTS

Alpha Smart Teaching Robot | 2024

Developed an interactive smart teaching robot using Arduino to assist students with basic learning activities, voice responses, and sensor-based interactions. Focused on improving real-time responsiveness and sensor accuracy to enhance user experience and engagement.

- Implemented real-time interaction and obstacle/sensor detection for smooth robotic responses.
- Integrated hardware and software components to create an intelligent and user-friendly teaching assistant.
- Improved system accuracy and performance through sensor calibration and testing.

Tech Stack: Arduino, Python, Embedded Systems, Sensors, Robotics

Placement Management System | 2025

Developed a web-based Placement Management System to streamline campus recruitment processes, enabling students to apply for jobs and administrators to manage placement activities efficiently. Implemented secure authentication, student profile management, and application tracking features.

- Designed responsive user interfaces for students and administrators to improve usability and accessibility.
- Integrated database management for secure storage and retrieval of student, company, and placement records.

Tech Stack: HTML, CSS, JavaScript, React.js, Node.js, Express.js, SQL, GitHub

AI Chatbot | 2026

Developed an AI-powered chatbot capable of answering user queries and providing real-time conversational assistance through natural language interaction. Implemented intelligent response handling and user-friendly interfaces to enhance communication and user engagement.

- Integrated Natural Language Processing (NLP) techniques to understand and respond to user queries effectively.
- Designed responsive chat interfaces with real-time messaging functionality for smooth user interaction.
- Improved chatbot accuracy and performance through optimized response handling and API integration.

Tech Stack: Python, JavaScript, HTML, CSS, React.js, Node.js, AI APIs, Git, GitHub

EXPERIENCE

Intern – AWS Cloud Computing

Mar 2024

- Complete a certified internship program focused on AWS Cloud Computing fundamentals
- Gained hands-on experience with cloud infrastructure, deployment models and AWS services
- Developed foundational skills in cloud architecture and scalability

Intern – NxtSync Technology

April 2026

- Completed Python Programming course at NxtSync Technology, strengthening skills in data structures, OOP, and problem-solving.”

CERTIFICATIONS

- ✦ Secured **2nd Prize in Buildathon** conducted by **K.G. College of Technology, Coimbatore**, Demonstrating strong problem-solving and development skills.
- ✦ Participated in a **24-Hour Milestone Hackathon** at **Sona College of Technology, Salem**, gaining hands-on experience in rapid prototyping and teamwork.
- ✦ Actively participated in a **hackathon at Kongu Engineering College**, enhancing coding and innovation skills.

LANGUAGES KNOWN

- Tamil (Native)
- English (Professional Proficiency)
